Design Contest  
ME72 Engineering Design Laboratory  
Fall Term, 2000  
DEVICE IMPOUNDMENT  
22-Nov to 27-Nov, 2000  

Your contest device (and kit) must be impounded for the Thanksgiving break. Leave your device (and kit) and design notebook on your workbench, in the M.E. Shop, no later than 5:00 pm on Wednesday 22-Nov, 2000. Your devices will be available for you to resume work at 8:00 am on Monday 27-Nov, 2000. Over the break the instructors will examine (and make notes about) each device and notebook.

Your device does not have to be in a fully assembled state, though making clear what are parts of your device, and what is scrap, will help make the state of your design and fabrication efforts clear to us.
