Design Contest
ME72 Engineering Design Laboratory
Fall Term, 2003
DEVICE IMPOUNDMENT
26-Nov to 1-Dec, 2003

Your contest device (and kit) must be impounded for the Thanksgiving break. Leave your device (and kit) and design notebook on your workbench, in the M.E. Shop, no later than 5:00 pm on Wednesday 26-Nov, 2003. Your devices will be available for you to resume work at 8:00 am on Monday 1-Dec, 2003. Over the break each device and notebook will be carefully examined by the instructor(s).

Your device does not have to be in a fully assembled state, though identifying what are parts of your device, and what is scrap, will help make the state of your design and fabrication efforts clear.
